

# **AFRC Automated Line of Duty (ALOD)**

## **Application Changes**

### Application Release Information

Application:	AFRC ALOD
Release Number:	1.1.1
Release Date:	24 August 2010

## **Introduction**

This document contains the release notes for AFRC ALOD version 1.0. The following sections describe the release in detail and provide late-breaking or other information that supplements the main documentation. This is a maintenance release that includes some new features.

## **What's New?**

- Personnel with the System Administration Role will be able to change member's unit and have the change take effect in real time.
- Print tracking will now show the same information as shown on the tracking tab.
- Personnel with the System Administration Role will be able to deny pending account requests without needing to approve them first.

## **Installation and Upgrade Notes**

### **Manifest**

This release consists of the following items:

- Release notes (this file)

## Recent Changes

- Bug 45 Fix - The Returned Without Action Report will show cases returned within the dates specified
- Bug 45 Fix – The LOD Disapproved Report will use the date the case was disapproved
- Bug 53 Fix – When running a report of a unit, the selected unit will not appear in the summary column
- Bug 59 Fix - When signing a case using DBSign, users will no longer receive a mixed content warning
- Bug 103 Fix - The LOD Total Count By Process Report will show all cases for the selected unit and the child units
- Bug 104 Fix - When running an Ad-hoc report the results will be displayed
- Bug 114 Fix – System Admin users will not receive a timeout error when setting the active role for a user
- Bug 122 Fix - Wing Admin users will be able to see other members with the same role when using the Manager Users tab, but they will not be able to modify their account
- Bug 125 Fix - Users will only see cases within their hierarchy
- Bug 132 Fix - The IO selection box will show all approved users with the IO role
- Bug 139 Fix – When the Approving Authority selects a finding of “Not ILOD; Not Due to Own Misconduct” the findings block on the 261 Print that selection correctly
- Bug 141 Fix – Adding email addresses for outgoing mail will no longer cause an exception
- Bug 150 Fix – Email notifications will use the correct reporting views
- Bug 151 Fix – Deleted cases will not appear in user’s queue
- Bug 164 – New units will import from MilPDS weekly; they will be assigned to their Parent unit.
- Bug 169 – The Following documents will be added under “General Documentation”: The Master LOD Checklist will be updated with the newest version. LOD Policy for ARC members.
- Bug Fix - Changing the member’s unit for an in-progress case will not invalidate the prior digital signatures
- Bug Fix - Changing a member’s unit will no longer result in an error message when you select the save button

- Bug Fix - When cases are returned from the LOD Board to the Appointing Authority, the Approving Authority will be able to send the case to the MPF
- Bug Fix – User account history will print track correctly when a user does not have a SSN entered
- Bug Fix – Admin users will only be able to assign roles they manage
- Bug Fix – Updating the reporting view for a user group will no longer cause an exception
