

# **AFRC Automated Line of Duty (ALOD)**

## **Application Changes**

### Application Release Information

Application:	AFRC ALOD
Release Number:	1.1.5
Release Date:	Upon completion of Customer Acceptance Testing

## **Introduction**

This document contains the release notes for AFRC ALOD version 1.1.5. The following sections describe the release in detail and provide late-breaking or other information that supplements the main documentation. This is a maintenance release that includes some new features.

## **What's New?**

- Bug 373 – The LOD Board Technician role will have the option to return cases to the Wing JA role.

## **Installation and Upgrade Notes**

### **Manifest**

This release consists of the following items:

- Release notes (this file)

### **Recent Changes**

- Bug 59 - Signing a case will no longer create a “Security Warning” entry in the error log.
- Bug 332 - All Investigating Officers will be displayed when the IO field is selected in the Ad Hoc Report.
- Bug 343 - The override function will capture the most recent finding when a case finding needs to be changed.
- Bug 371 - MPF users will be able to assign the completed case queue to the newly formed MPF Read-only user group.

- Bug 422 - The Search Member List will place the names in the desired order.
- Bug 445 - The Medical Officer will be able to cancel the LOD case without receiving an error message.
- Bug 458 - Sys Admin will be able to update the "end date" on messages.
- Bug 461 - The LOD board action will not be checked until selected.
- Bug 462 – MPF role will be able to search for a member's entire history of completed cases without timing out.
