

# **AFRC Automated Line of Duty (ALOD)**

## **Application Changes**

### **Application Release Information**

Application: AFRC ALOD

Release Number: 1.1.11

Release Date: Upon AFRC's acceptance

## **Introduction**

This document contains the release notes for AFRC ALOD version 1.1.11. The following sections describe the release in detail and provide late-breaking or other information that supplements the main documentation. This is a maintenance release that includes some new features.

## **What's New?**

- TFS 8334: Added Unit level comments tab within LODs. Any Unit Level user can add/view comments.
- TFS 8335: Unit Commander will receive email notification when their member's LOD cases are completed
- TFS 8424: Unit Commander Role will "Upload Maps/Accident Report" for Injury MVA instead of the Wing JA.
- TFS 8425: Case Number will be printed in top right hand corner of the DD 261 and AFRC 348.
- TFS 8426: When an LOD is Informal and it is completed by the Wing Commander/Appointing Authority, blocks 9A and 9B on page two of the AFRC Form 348 ALOD will be printed "This Block Not Used".
- TFS 8429: "Subordinate Units" has been added to the "ADD Criteria" selection field in Ad Hoc reports.
- TFS 8431: Modified existing LOD memos.
- TFS 8434: Added sortable column to "My LODs" for LOD Board Tech
- TFS 8436: Added User Expiration date to the Manage Users page
- TFS 8847: The ICD 9 codes selected by the either Medical Tech to Medical Officer will determine what the "Nature of the Incident" is or if multiple incidents scenarios are possible, the selection choice will be narrowed by the ICD 9 Code.

- TFS 8440: Created MMSO pre-authorization sub-module. Select user roles will be able to view, act upon and forward/return MMSO pre-authorization requests.
- TFS 13773: Created the ability for Sys Admin to be able to override any Specialty cases, same as in LOD
- TFS 9720: Applied the "For Official Use Only" watermark for the Official Forms 348/261 and Memos

- **What bugs have been resolved?**

- Bug 1441: Removed in-garrison validation from IRILO checklist workflow
- Bug 1473: Error log server error if particular DBSign errors are present

- **Manifest**
